\*Takes place simultaneously with another procedure.

\*\*The distance to frontier score shows how far on average an economy is at a point in time from the best performance achieved by any economy on each Doing Business indicator since 2005 or the third year in which data for the indicator were collected. The measure is normalized to range between 0 and 100, with 100 representing the frontier. [Read more...](#)

\*\*\*Last year's rankings are adjusted. They are based on 10 topics and reflect [data corrections](#).
